"...

Otters

are still very much present on the island

and

"The rich diversity of birds includes Gulls, Shags, Mergansers, Herons, Pipits, Oystercatchers, and Kittiwakes have re

*"There are changes in the wildlife throughout the year. In the winter, Oystercatchers and Herons are regulars around the island, but are seen less often during the summer when they may be breeding elsewhere. In the summer Stonechats and Meadow and Rock Pipits appear. This year the Rock Pipits nested under the bridge itself, making use of the large area on top of the bridge legs."*
